4.	Yongbyon Nuclear Scientific Research Centre		Facilities capable of producing fissile material for military uses, including a 5MW (e) reactor, a plutonium reprocessing facility (radio-chemical laboratory), and a reported uranium enrichment facility. The Centre is maintained by the General Bureau of Atomic Energy (entity designated by the UNSC, 16.7.2009). In its final report of March 2023, the Panel of Experts set up pursuant to UN Security Council Resolution 1874 noted indications of possible tests of the cooling water system at the Light-Water Reactor, satellite imagery showing that the 5MW reactor had continued to operate and intermittent signs of smoke from the chimney of the thermal plant of the radiochemical laboratory. Plumes of steam from the uranium dioxide production building probably indicated that the DPRK would continue production of fissile material.

10.	Pan Systems Pyongyang a.k.a. Wonbang Trading Co.; Glocom; Interna- tional Golden Services; Interna- tional Global System	Address: Room 818, Pothonggang Hotel, Ansan- Dong, Pyong- chon district, Pyongyang, DPRK.	Pan Systems has assisted in the evasion of sanctions imposed by the United Nations Security Council through the attempted sale of arms and related materiel to Eritrea. Pan Systems is also controlled by and works on behalf of the Reconnaissance General Bureau, an entity that has been designated by the United Nations. The March 2023 Final Report of the UN Panel of Experts presents information that Pan Systems continues to engage in attempts to export arms.
11.	Eritech Computer Assembly & Com- munication Techn- ology PLC	Address: Denden Street N028, Asmara, 257, Eritrea	Eritech Computer Assembly & Communication technology PLC is placed under the authority or under the direction of the Eritrean Defense Forces and is domiciled within their complex of the Asha Golgol Military Technical Center, used for the production, modification or repair of civil and military and paramilitary equipment. It is engaged in sanctions evasion and responsible for supporting the DPRK's nuclear and ballistic programmes since it was identified as the intended recipient in July 2016 of a shipment from China of military communications equipment of DPRK origin. Most of the equipment concerned came from GLOCOM, a DPRK company specialised in the supply of military transmission equipment, linked to the DPRK intelligence services in violation, in particular, of UNSCR 2270 (2016). The March 2023 Final Report of the UN Panel of Experts presents information that Pan Systems continues to engage in attempts to export arms.
